

## Transparency International Israel (TI-Israel)

**Transparency International Israel** (TI – Israel) was established in 1999 by the late Professor Dov Izraeli. He was the expert of Ethics & Management in the Business Administration Faculty in Tel Aviv University, which since then has become our residence of activity.

TI – Israel is the Israeli chapter of **Transparency International (TI)**, a global organization whose vision is "A World Without Corruption". With more than 100 chapters around the world and an international secretariat in Berlin, TI works with partners in government, business and civil society in order to promote norms of Transparency, Ethics & Education and put effective measures in place to tackle corruption.

**TI – Israel's vision** is to promote and establish the values and norms of transparency, ethics, integrity and accountability in the public and business sectors in Israel, while striving towards the goal of preventing corruption. Our guiding principles are the immortal words of the US Supreme Court Judge Louis D. Brandeis: "**Publicity is justly commended as a remedy for social and industrial diseases. Sunlight is said to be the best of disinfectants; electric light the most efficient policeman**".

In this spirit, we are all required to maintain the values of transparency while constantly striving to eradicate corruption, in order to protect the law enforcement authorities, the independence of the judicial system and freedom of the press and media. By embracing and by being committed to these values, we will be active participants in promoting Israeli Democracy as a guardian of human and civil right to all.
